

Voice Mail Anti-tromboning (VMO)

- ◆ Suppress extra roaming cost for the deposit of messages to your out-bound roamers.
- ◆ Avoid the voice mail "tromboning".
- ◆ A flexible solution that can cope with the peculiarity of your infrastructure.

Roaming charges (IOT) suppression: enhanced call back STK or CAMEL solution

- ◆ Allows your subscriber receiving party not to be charged and the calling party to have local rates (2).
- ◆ Least cost call method selection (1) or (2) based on Roaming Partners and international call rates.
- ◆ Transparent standard call ergonomics, not like "USSD call back", address book can be used, with normal dial key.
