

GSM ↔ SIP CALL TERMINATION OVER IP NETWORKS (TAIP)

FOR MOBILE NETWORKS

- ◆ Broaden your services to areas with no GSM or UMTS access or coverage.
- ◆ Attract inbound visitors and satisfy your roaming subscribers with optimal price plan: **same call rates as from home network**.
- ◆ Allow your subscribers to receive calls **on their GSM number** and make calls in countries you do not have roaming agreements with.
- ◆ Outgoing call and SMS-MO have the usual GSM CLI.
- ◆ Offer full GSM services (SMS-MO, and SMS-MT) without extra IP infrastructure equipments.
- ◆ Provides visio to visio calls between connected customers and also with 3G customers (SIP↔ H324-M conversion)
- ◆ No installation needed in the PC (softphone fully included in HALYS USB key)
