

# TNC : TacticalNetCase

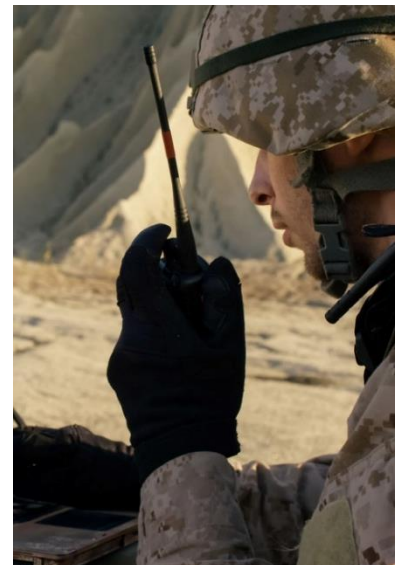

By Halys

## Your 4G PMR Tactical NetCase turnkey

Deployed in a few minutes, the 4G PMR Halys tactical netcase provides access to a very high-speed mobile network at the location of its deployment.

- **Easy and fast** to deploy
- **Scalable:** allows the connection of radio equipment's frequencies and powers adapted to the environment or user needs
- **Resilient:** guarantee of network operation
- **Self-contained:** with a very high-speed connection
- **Interoperable:** with other networks such as satellites, gateways VHF, 4G network
- **Qualitative:** high bandwidth availability
- **Geo-redundancy** infrastructure

3GPP  
standards  
compliant

Compatible with  
all MCPTT  
solutions

ManPack

Vehicle

Stationary

## Technical specifications

- Compact mobile netcase
- Weight: < 15kg
- Can be use in extreme conditions (-20°; +50°)
- Power:
  - Batteries hot-swap with 3 - 7H autonomy
  - To the mains 80-264 VAC
  - 12V/24V VDC
- 2 Enode-B in 48V power
- 3 USB port
- 5 RJ-45 port
- Integrates a core network EPC 4G / CPU Intel Quad-Core i7

Halys

## Multi-network SIM

- HALYS has its own network code (208-94) and has its own SIMcards edited by its « Executive Telecom » brand
- Each SIM card has a private and public IMSI that can be attached not only to the private HALYS network but also to the public network (National & International)
- Automatic switch between IMSI and networks as needed: economical, technological, safe or emergency
- SIMcards can be managed remotely (via OTA) by a platform developed by HALYS
- Resilience on several operators in the same country
